

Course Laminated Products

Content:

This course will extend the knowledge of products that require lamination, such as Puff and Danish pastry, like apple turnovers, vol-au-vent, croissant and danish. The attendee will learn to understand the product matrixes and interactions and try to bring this into practice.

Aim:

- Create an understanding of pastries, their ingredients and its interactions.
- Create an overview on basic recipes and manufacturing processes.
- Discuss troubleshooting

Learning topics:

- Ingredients and their influence of final product on quality and processing perspective
- Mixing and laminating methods
- Layering techniques and final product quality

Products to be made:

- Turnovers
- Danish
- Croissant
- Vol-au-vent
- 1 or 2 requests

Duration:

5 days, combing theory and practice

Next course planned:

21-25 January, 2019

Number of attendees:

Minimum 4, maximum 8

Overview Courses

Reference book

Each attendee will receive at the end of the course:

- Certificate
